

American Tire Distributors Supply Chain Fact Sheet

ATD Supply Chain is focused on our company-wide vision to become the most connected and insightful automotive solutions provider. With the largest private fleet for last-mile delivery and a U.S. distribution footprint larger than Target, Walmart or Home Depot, ATD has long been known for its industry-leading supply chain. We achieve this through standardization and scale, industry-leading operating systems, continued performance evaluation and meaningful metrics.

ATD Supply Chain is developing applications that give customers more control over purchases and delivery timing and are constantly improving and upgrading our infrastructure. Our team works with a vast digital ecosystem, comprised of partners such as Oracle and Microsoft, among others – all contributing to our international and domestic supply chain and regional D.C. network success.

ATD's network presence is effective and expansive, with:

- 146** Distribution Centers
- 4** Mixing Warehouses
- 30+** Hub & Spoke Networks
- 6** Adjustment Centers

And our fleet does not tread lightly:

- 80 Million** Miles Driven Per Year
- 1,400** Vehicle Private Fleet
- 1,150** Warehouse Equipment
- 17,000** International Containers Delivered Per Year

Our customer-focused approach to supply chain and the tire distribution industry includes:

- 115,000** Customer Delivery Points
- 8 Million+** Deliveries Per Year
- 45 Million+** Units Delivered Per Year

ATD supply chain also handles a large amount of product and network operations:

- \$1 Billion** Of Product On Hand
- 22 Million** Sqft Of Warehouse Space
- 15,000** Active Products
- 600,000** Stocking Locations

ATD would not be where we are today without our well-trained associates and vast global network comprised of:

- 5,000** Associates across North America, including **800** in Canada

Alliance Mixing Center

- 756,000 Sqft located in the Alliance Business Park in Roanoke, Texas
- Located approx. 9 miles from the BNSF railway intermodal facility
- Servicing 32 of ATD's DCs
- Initial capacity of approx. 650,000 units, with a max capacity of 950,000 units
- Capacity for approx. 86 outbound loads & approx. 100 inbound loads per week
- Includes a new Warranty and Adjustment Center
- ATD's first Foreign Trade Zone (FTZ)
